It is the opinion of SAs [redacted] and [redacted] b7
that [redacted] is interested in establishing contact with the FBI in Arizona in the event he should ever become involved in "border-line" activities. It was noted that [redacted] initiates contacts with the press and Government agencies, but in conversat he indicates "he was contacted by." [redacted] also seemingly has a tendency to embellish his stories. However, as [redacted] does have some knowledge of matters of current concern to the United States Government and as [redacted] is disposed to contacting the Phoenix Division at this time, Phoenix will continue to receive information from [redacted] and furnish same to Bureau. As noted in LHM, [redacted]'s last contact with Phoenix on 8-10-76, [redacted] was advised [redacted] to detailed b7
writing.
